EXPERIENCE

Product Designer · Pitio
Istanbul | 2026 – Present

AI personal trainer with real-time video coaching.

- Lead end-to-end product design, from early concepts and user flows to interactive prototypes.
- Design real-time AI coaching interactions, feedback systems and retention mechanics, including habit loops and coach memory.
- Conduct competitive research and develop product narratives for early-stage positioning and investor discussions.

Co-founder & Product Designer · Meel
Istanbul | 2022 – 2026

AI wellness app for healthy living.

- Led end-to-end product design and 0→1 strategy, shaping the product vision, roadmap and OKRs.
- Led user research, competitor analysis and hypothesis validation to shape the product proposition.
- Partnered with engineering on PRDs, sprint planning and delivery; iterated through usability testing and A/B experiments.
- Improved AI assistant experiences through prompt design and RAG optimization; led GTM, ASO and growth initiatives.

2K+ paid users in 3 months · 4.6★ app rating · +34% trial-to-paid conversion

AR Operations Lead · Reef Technology
Miami | 2020 – 2022

Technology company focused on delivery services.

- Led an 8-person team overseeing sales operations and data across Uber Eats, DoorDash and other platforms.
- Identified operational inefficiencies across high-volume payment systems (1M+ daily transactions), collaborating with technical teams to improve performance by ~40%.
- Contributed testing, validation and feedback to the launch of a SaaS financial product.

Financial Operations Associate · EY
Istanbul | 2017 – 2020

Accounting and compliance for multinational clients.

- Delivered financial insights to executives, supporting data-driven business decisions.
